IAF International Meeting for Members of Parliaments

*“Space Applications/Solutions for the Benefit of Civil
Society”*

IAC is not only the place for engineers, scientists, industrials,
researchers...

it is also the place for Parliamentarians !

We must not neglect this strategic sector!

The place to be whether your country is involved or not yet in space!

For more than 10 years the IAF invited Members of Parliaments
from all over the world to get together and discuss about space.

The 11th Meeting will invite MoPs to focus on
“Space Solutions for the benefit of Civil society”
within their respective countries

Goal of the event

Sharing experiences and good practices, creating synergies through the testimony of colleagues,

Discover with peers the benefits of space technologies for civil society

Not technical, but concise and relevant topics for Decision makers.

“Space Solutions for the Benefit of Civil Society”

Space services are now part of our everyday life, and they can be incredible allies to face specific national needs.

For this reason, we invite every attending MoP to actively participating in the event by giving a

10 minutes presentation on one, or more, of the following specific topics:

- ❖ **Space Solutions for Health & Emergency**
- ❖ **Space Solutions for Mobility**
- ❖ **Space Solutions for Public Services**

The discussion amongst participants is highly encouraged. Highly effective advice will given by colleagues

Each topic will be introduced and moderated by a **high-level expert** of the field.

>> By the end of July: the topic + title of the Space Solutions selected must be send to IAF

Press Conference and Recording

At the end of the event all participants MoPs will be invited to take part in a **Press Conference** where local and international media will be invited.

To provide an additional tool in the promotion and knowledge of Space at national level we would also like to record the Meeting.

The Video of the interventions will be shared with the MoPs at the end of the Congress and for promotional use.

The Press Conference will not be recorded.
